Goodbye Walkers!

Senior- Christian Walker

High school was a wonderful experience. At Chandler prep, we learned how to discuss ideas from original texts. This sort of discussion revealed just how important the American experiment was and is. It took thousands of years of hard labor to get to the America we know today. This is a country worth preserving. The Teenage Republican Organization, provided a way for me as a teenager to learn how the political system works. We met so many wonderful people, and accomplished so much including helping on campaigns, attending candidate events, and participating in leadership trainings. The Teenage Republicans showed me that there is still so much work to do. I will be attending The Master's University in the fall to study mechanical engineering where I will also be doing ROTC. God bless America.

THE REPUBLICAN NEWSLETTER

Washington D.C. July 2025 National Leadership Training

What Is It?

Various states bring their teenage republicans to DC to interact with Senators, Congressman, and a variety of other leaders. They learn about Republican politics, policies, and discuss current social issues.

Why Do We Attend?

We have 27 teen leaders and advisors from Arizona attending the conference. This was made possible due to fundraising and donations. The hope is to give teens a better look into Republican politics by allowing them to discuss their questions and learn from professionals.

How Can You Help?

You can help by supporting the teens and/or donating. Visit the website to see what we are doing. If you are interested in joining TARs, Membership forms are available on the home page.
