

TARS ON CHIPS AND SALSA PODCAST

ELECTRA FIRE IS OFF TO HILLSDALE COLLEGE!

I've been in TARS since I was 12 years old. My very first event was at Top Golf with talk radio host Mike Broomhead—pretty cool way to kick things off! Over the years, I've served as East Valley Chapter Chair, Chapter Vice Chair, State Vice Chair, and most recently, State Women's Caucus Chair.

In 2023, I had the incredible opportunity to travel to D.C. with the Teenage Republicans. Riding the underground tram that members of Congress use felt surreal, and the nighttime Capitol tour was unforgettable. But the real highlight? Stepping onto the House floor at midnight when it was completely empty—such a powerful moment. Oh, and let's just say the girls from that trip will never forget the fanciest ladies' room in the country right outside the House of Representatives!

I've also had the chance to speak on behalf of TARs at a Federated Women's chapter and sold tons of raffle tickets to help raise money for the 2024 Republican National Convention in Milwaukee.

Now, I'm heading to Hillsdale College—a conservative Christian college that truly stands for everything I believe in. Their motto, *virtus tentamine gaudet*, means "strength rejoices in the challenge," and I'm so ready for that challenge.

I can't wait to be at a school that loves America just as much as I do. ~ELECTRA FIRE

CHAPTER SPOTLIGHT

The Yuma Teenage Republicans: “Where Politics Meets Fun”

In Yuma, a group of energetic teens is proving politics isn't just for adults – it's for anyone with passion, ideas, and a love for their community.

The Yuma Teenage Republicans meet every month for lively mixers, eye-opening presentations, and spirited debates that make you actually want to learn about government.

From Mystery Murder Night in October to their Christmas Party at Wild River Family Entertainment Center, they mix serious discussions with serious fun. Members dive into topics like the Constitution, free markets, and how elections really work – all while planning voter registration drives, community service projects, and even trips to the State Capitol.

But it's not just about learning; it's about leading. Whether helping at the Yuma County Fair, volunteering at the Pumpkin Patch, or attending the State Teen Convention, members get hands-on experience that could shape their futures. Passionate about freedom, community, and making a difference, these teens are tomorrow's leaders – and they're already making their mark today.

So, if you're ready for friends, fun, and a future in shaping the world, the Yuma Teenage Republicans are ready for you!

OUR YUMA KICK OFF EVENT WAS A HUGE SUCCESS!

LEADERSHIP SPOTLIGHT

Anna Rosado, SEV Secretary /MCRC Rep

Anna is 13-years-old and has been in TARS for a year. The Vital Choice Project (TVCP) is a project she cares about that was co-founded by lifelong friends Garrett Pagel and Ashton Portmann, age 22. Anna attended the most recent TVCP event, Fuel the Fight fundraiser. Fuel the Fight featured boxing champion Mike Tyson and UFC champion Tito Ortiz (pictured above with Anna), both passionate supporters of children's health through physical activity and healthy diet. TVCP has two chapters opening on college campuses this fall, and the fundraiser was to support that effort. This was the second major event for TVCP, the first being a panel discussion about the quality of food in government school lunches which featured actor Rob Schneider.

Co-Founder Garrett was kind enough to chat with Anna about TVCP. Garrett revealed that TVCP began during a FaceTime call between the friends in October 2024 and has officially been incorporated since April 2025. They saw a need for true healthy lifestyle support on college campuses. *Make America Healthy Again* is an educational issue not a political issue. TVCP is trying to change the healthcare system through education. It was truly inspiring to be able to speak with Garrett and see the events he is influencing, in part because of his age and all he is accomplishing and in part because of his relatability.

For more information on this project, visit www.thevcp.org
