

My experience at the RNC was unlike no other political event i have been to. Besides seeing President Trump and Vice President JD Vance and being in my home state of Texas, it gave me the opportunity to learn and see what this administration has done in the past 2 years and will continue to do for the next 2 years. It was also very cool to see other political speakers such as RFK because his uncle JFK was a Democrat. I believe it was a great example about how much the Democratic Party has changed over the years. RFK said it himself that it is not the same party that he was once a part of. It was unexpected and exciting to see UFC fighter Justin Gaethje talk about the amazing work that Donald Trump has done and how important it is to go out and vote. I had so many interesting conversations with people there regarding politics, religion, the Constitution, the next generation of Americans and the Republican Party. Lee Greenwood performing "God Bless the USA" as President Donald Trump walked out both nights was very cool. I've seen and learned so much at this event, it is something that I will never forget. -Xavier G.

Participating in the RNC alongside the Teenage Republicans provided a valuable opportunity to engage with national GOP leadership and administration officials regarding Arizona's political landscape and our country's future. It was an effective initiative to mobilize our base and secure a decisive victory this November. -Ocean R.

Teens Go to the Republican National Convention!

I never would have expected to find myself on my way to the Midterm Republican National Convention this year, but being active in TARs brought me all the way to Dallas, Texas. I was able to attend prestigious brunches with important keynote speakers, and was even able to dine with Newt Gingrich at my side. Through pulling the right strings, we got to sit and watch the convention take place while seated on the floor. Watching the convention take place before my eyes was unlike any experience I've ever had. Seeing our nation's delegates, the balloons as they slowly fell from the ceiling, and singing "I'm proud to be an American" with a room full of patriots. I'm very grateful to every single person who donated to me, prayed for me, and helped me along the way. RNC 2028 will be my next stop. -Anna R.

The RNC Midterm was an amazing and inspiring experience that I will never forget. Being surrounded by so many passionate leaders, activists, and young people who are dedicated to making a difference gave me an even greater appreciation for being involved in the political process. I had the opportunity to learn from incredible people, make new connections, and see firsthand the amount of work and dedication that goes into building a strong movement. The experience motivated me to continue growing as a leader, serving others, and encouraging more young people to get involved. I came home inspired, grateful, and even more excited about the future and the role our generation can play in shaping it. -Gabby E.
